DESCRIPTION

The SK8000 is accented by its tasteful frame with a distinguished brushed texture that enhances any room. This new LG SUPER UHD TV with AI (Artificial Intelligence) ThinQ® becomes the center for the smart home: Using Intelligent Voice control, speak into the LG Magic Remote to pull up family photos, control light settings, check the weather and more. The α7 (Alpha7) Intelligent Processor works in tandem with the Nano Cell™ Display to deliver truer colors, deeper black levels and a wider viewing angle, while the local dimming backlight reveals a remarkably accurate picture with dazzling 4K detail. The SK8000 features comprehensive support of major 4K high dynamic range formats including premium Dolby Vision™, as well as HDR10 and HLG.

KEY FEATURES

α7 Intelligent Processor

Enjoy a more lifelike picture with superior depth, sharpness, and remarkably accurate color. The α7 Intelligent Processor delivers an enhanced 4K HDR image for a truly cinematic experience.

LG AI ThinQ®

LG SUPER UHD TVs with AI (Artificial Intelligence) ThinQ becomes the center for your connected smart devices. Beyond apps and entertainment, LG AI TV uses intelligent voice control to create a center for the smart home and beyond.

*Service limited to certain languages. Some features require 3rd party service subscription.

Local Dimming

Discover previously unseen detail with a vibrant, natural picture. Different zones of light across the screen can brighten and dim independently, enhancing contrast and achieving deeper black levels for a rich, lifelike image.

Nano Cell™ Display

Nano Cell™ Display delivers truer colors, reduced reflectivity and deeper black levels, even at a wider viewing angle. Nano Cell™ Display improves color accuracy with its expanded color gamut while absorbing unwanted light.

4K Cinema HDR

LG SUPER UHD TV with AI ThinQ features comprehensive support of major high dynamic range formats including Dolby Vision™ HDR from the cinema, as well as HDR10 and HLG, both with LG's advanced tone-mapping technology that provides scene-by-scene optimization.
